

Class Three Bean Story

FULL OF BEANS!

It was a very exciting day for all the boys of class III. They had planted quite a number of bean plants in school as a part of their science project. Very carefully, they prepared the pot, dug the soil and with the help of their teachers, they sowed the bean seeds into the soil. They did not know yet what lay in store for them. They were in for a big surprise the next day.

Let us hear what the boys have to say.

Tuesday morning, 22nd April; The boys of class IIIA

When we came to school, we were surprised to see that one of the plants has come to life and it was standing outside our class to welcome us. It was such a pretty plant! It became friends with us in no time and when the bell rang for our morning assembly, it went down to the prayer hall with us. It prayed and thanked God for giving it life. It then came up to our classroom, sat with us and then studied the different subjects. It was thrilled during the tiffin break as it could share our food and go down to

the ground to play. While playing, it became dirty and got hurt a couple of times as it was not wearing proper uniform and shoes. But the plant had a great time with all of us. When it was time to go home, it jumped back into its pot and we were very sad to leave it all alone.

Boys of class IIIB : 23rd April, Wednesday morning.

We were very excited to see that the plant had come to our section. It was very sweet. We had great fun with it during our Lunch break as it was very fond of eating. After the break it went with us to the computer room and was being very naughty there. It was not letting us do our work at all. It started playing games in different computers. Our computer teacher got annoyed and scolded the plant. After returning to the classroom, it was making us laugh by making funny faces. At the end of the day, it had tears in its eyes as we had to go back home. We had a great time together.

- But the plant had a great time with all of us!

When it was time to go home, it jumped back into its pot and we were very sad to leave it all alone.
